

KINGSDOWN SCHOOL

Kingsdown School is a special school for children aged 3 to 14 who have severe learning difficulties (SLD), profound and multiple learning difficulties (PMLD), physical disabilities and associated learning difficulties.

Kingsdown School have been using the 1decision resources for the past four years with pupils who all have significant learning disabilities.

Each module comes with a separate Scheme of Work which their staff have found most useful. Along with the Teacher Guidance they have been able to use these to implement sequential lessons around the specific theme.

The pupils have enjoyed watching the video examples on the website and have been able to identify with the characters and learn how to make 'good choices'. They have also found the paper copies of the activity workbooks extremely clear and user friendly and these have proven popular with everyone.

The Learning Journals are being used as part of our assessment and recording system and this too is already proving valuable. They believe the resources are of a good quality and very user friendly.

Staff at Kingsdown School believe the 1decision programme and resources make a very welcome and highly useful addition for any school and would strongly recommend visiting the website and trying out the resources.

Case study approved: March 2017
